

ST KILDA

A PHOTOGRAPHIC GUIDE TO ISLAND HISTORY AND DEVELOPMENT

At the edge of the world sits a small archipelago known as St Kilda. A place where men flew like birds along the cliffs, fighting for survival against hardship and isolation.

Modern photographs, maps, and illustrations bring the island to life as never seen before. Full-color images illuminate the landscape, while a comprehensive written history gives the culture new life.

From changeling folklore to communal murder, no story is left untold. History, wildlife, community, and culture are all revealed, with a special section dedicated to the unique buildings of St Kilda.

A spectacular true story you won't want to miss.

**“A stunningly illustrated
account of life on the edge
of the world.”**

About the Author

Christine Sima is an award-winning designer, author, and photographer from Cleveland, Ohio. She has a bachelor's and master's degree in architecture from the University of Cincinnati. Her architectural designs have been awarded an AIA CRAN award, Lyceum Fellowship, and the Simpson Urban Futures Award.

Now based in Tampa, Christine focuses primarily on architectural and historical non-fiction, with her debut book *St Kilda, A Photographic Guide* set to be published on December 6th, 2022.
